BuzziSkin Printed

— by Buzz!Space Studio

Design your wall

Customize your wall with our new Buzz!Printed Skin. Add some impact to your wall and give it a marble or wooden touch (prints from our standard collection). Or be unique and choose your own personalized print. You can choose an all-over print or a placed print.

We can print

1. Text
2. Logo
3. Bright colors
4. Solid colors
5. Shades of the same color
6. Black and white print
7. Sharp lines in between colors
8. Geometric shapes
9. Organic shapes
10. Fine print
11. And probably a lot more...

A few things to keep in mind:

- An exact color match will not be possible, due to the color and texture of Buzz!Skin. We can print on all Skin colors, but the Skin color will directly impact the end result. A document showing the different results on different felt colors can be sent upon request.

We suggest to print on off-white, to get as close to the desired color as possible. To match specific colors, we will provide 3 samples of colors that are close to the requested color for approval.

- The inks used are UV-resistant. UV-test report can be mailed upon request.
- Print is only on the front of the felt. The visible edges will still have the original felt color. This is the case when printing on Back, Desk, Falls, Loose, etc.

Material

Layer of Buzz!Felt with selfadhesive backing

Mounting

Selfadhesive backing for vertical use only
