

BuzzzTotem

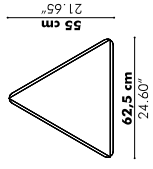

— by BuzzzSpace Studio

Free standing acoustic pillar
 BuzzzTotem is a completely new family being introduced for specific acoustical performance. The range consist of 3 models – Wedge, Cylinder, Beam and each in 3 sizes. For stability reasons and functional purpose the models are fixed on a black metal baseplate. Thanks to it's small footprint it is easy to add on in existing fitted rooms with sound issues. BuzzzTotem is highly performant for diffusion and absorbing sounds in offices, residential homes and hospitality areas. Thanks to the vast range of fabrics offered BuzzzTotem can become a true design feature.
