

**SATELLITE**  
Easy Chair  
By Richard Hutten

**PRODUCT INFORMATION**

Satellite is an easy chair for activity based spaces, a spinning easy chair for a digital lifestyle with high comfort and round playful features.

“Architects always draw circles very fast to indicate where to position chairs on their floor plans. I thought that was a nice gesture so I drew a circle and said that it should be the top view of the chair. To me the circle is the most elegant form, there are no bulky sides and it can go in all directions which means it’s never out of place”, says Richard Hutten.

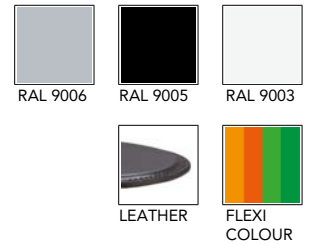

**TECHNICAL INFORMATION**

Upholstered in fabric or leather. Standard leather Elmo Soft, piquet on the inside and standard on the outside. Rotatable table top in anthracite lacquered MDF. Chromed swivel frame with return.

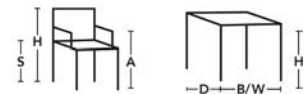

**OPTIONAL**
